

# 2026 Boston User Group: Convince Your Boss Template

**Subject:** Request to attend Nasuni User Group

Hi [Boss's Name],

I'd like your approval to attend the Nasuni Boston User Group (Nasuniverse) on June 10 at Exchange Conference Center. This event is focused on a topic that's becoming increasingly critical for us: how to make our file data work better for both our teams and emerging AI initiatives.

Nasuniverse brings together enterprise customers, IT leaders, and Nasuni executives to share real-world strategies for managing, protecting, and activating file data.

A few reasons this is directly relevant to our priorities:

## 1. Learn how peers are solving the same challenges we face

Sessions are focused on dealing with large-scale file growth, hybrid work complexity, and increasing pressure to support AI. I'll get practical insights into:

- Reducing infrastructure cost and complexity
- Improving file access and performance for distributed teams
- Strengthening ransomware resilience and governance
- Preparing file environments for AI in a secure, structured way

## 2. Bring back strategies tied to real business outcomes

The event is structured around three areas that align closely to our goals:

- **Manage:** Optimize cost and gain visibility into our file environment
- **Protect:** Improve resilience, recovery, and governance
- **Activate:** Enable faster collaboration and AI-ready data access

These are not theoretical sessions, they're focused on measurable outcomes like cost reduction, productivity gains, and risk mitigation.

## 3. Direct access to Nasuni leadership and product roadmap

This is an opportunity to engage directly with the teams shaping the platform, share our priorities, and understand what's coming next. Customers actively influence roadmap direction in these sessions, not just listen to presentations.

#### **4. Build a peer network we can leverage long-term**

Nasuniverse is designed to connect customers who are tackling similar data, infrastructure, and AI-readiness challenges. That network becomes an ongoing resource for best practices and problem-solving beyond the event itself.

From a cost perspective, there's no fee to attend. I estimate approximately \$[X] for travel and \$[X] for hotel.

If approved, I'll document key takeaways, recommended actions, and opportunities we can apply immediately to improve our environment and strategy.

Please let me know if you'd like more details on the agenda or expected outcomes.

Thanks,

[Your Name]
